DETAILED ACTION

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-14 are rejected under 35 U.S.C. 103(a) as being unpatentable over Schorr '810 in view of Griffiths.

Schorr shows the basic game claimed by applicant. However, he only shows one side wager being that of a tie. Many side wagers are known including that a hand of blackjack would occur as taught by Griffiths. To have allowed a player to wager that a hand of blackjack would occur in a game like Schorr would have been obvious in order to keep the player interested in the game as taught by Griffiths (col. 2, ln. 45).

Response to Arguments

Applicant's arguments with respect to claims 1-14 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Keller, Eaton, Marks and Pike show side wagers for blackjack.
